

ODYSSEY PROTOCOL

Physical Transformation, Nutritional Strategy & Progressive Training Plan

User: Juan / Juangcastro Inspiration: Matt Damon (The Odyssey) Start Date: Tomorrow

1. Current Body Diagnostics & Targets

Based on the latest body composition report (Fitdays Scale, July 21, 2026), the analytical baseline is established for transitioning into a lean, athletic, functional Greek-king physique:

Body Metric	Current Value	Range / Fitdays Assessment	Target Goal (Odyssey Protocol)
Total Body Weight	82.7 kg	High (Normative range: 60.6 - 82.0 kg)	77.0 - 78.0 kg (-5.0 kg fat mass)
Body Fat Percentage	19.4%	Standard (16.0 kg fat mass)	14.0% - 15.0% (Lean V-Taper aesthetic)
Skeletal Muscle Mass	38.1 kg (46.1%)	Excellent (Normative range: 30.6 - 37.4 kg)	MAINTAIN ≥ 38.0 kg (Strict preservation)
Fat-Free Body Weight	66.7 kg	Excellent	Preserve active lean tissue
Basal Metabolic Rate (BMR)	1810 kcal	Baseline non-active expenditure	Estimated daily expenditure: ~2450 - 2550 kcal
Visceral / Subcutaneous Fat	Grade 5.0 / 13.9%	Excellent / Standard	Metabolic & abdominal optimization

Strategic Analysis:

You already possess an outstanding muscle foundation (38.1 kg skeletal muscle, classified as "Excellent"). Your objective is not bulky hyper-volume, but body recomposition: shedding ~5 kg of fat while preserving every ounce of muscle to achieve Matt Damon's lean, dense, functional Greek king physique.

2. Nutritional Strategy & Daily Habits

Caloric & Macro Prescription

- **Daily Caloric Target:** 1,950 – 2,050 kcal (~500 kcal daily deficit for a steady fat loss rate of ~0.5 kg per week).
- **Protein Target:** 165g – 180g / day (~2.1g per kg of lean body mass). Essential for shielding skeletal muscle mass.
- **Carbohydrates:** 150g – 180g / day (focused heavily around peri-workout windows).
- **Healthy Fats:** 55g – 65g / day (avocados, extra virgin olive oil, raw nuts, egg yolks).

The Damon Rule: Zero Gluten & Inflammatory Foods

Matt Damon credited going strict gluten-free as the single most effective dietary change for eliminating bloat, shedding fat, and sustaining peak daily energy during film preparation:

- **ELIMINATE COMPLETELY:** Gluten (traditional breads, wheat pasta, regular beer), refined sugars, alcohol, processed dairy, and liquid calories (juices, sodas).
- **CLEAN PROTEIN SOURCES:** Chicken breast, turkey, lean beef cuts, whole eggs and egg whites, fish (salmon, tuna, white fish).

- **GLUTEN-FREE CARBS:** White/brown rice, sweet potatoes, potatoes, certified gluten-free oats, quinoa.
- **MANDATORY HYDRATION:** Minimum **3.5 to 4.0 liters of water** daily to optimize fat metabolism and cellular performance.
- **SLEEP & RECOVERY:** 7 to 8 hours of uninterrupted nightly sleep.

3. Home Gym Equipment Inventory

Kettlebells & Dumbbells

- Double 12 kg & 16 kg kettlebells.
- Single 20 kg & 53 lb (24 kg) kettlebells.
- Fixed DBs: 2x 15 lb (~7 kg), 15 kg, 5 kg, 1x 50 lb (22.5 kg).
- Bowflex adjustable DB pair (5 lb to 55 lb / 2.5 to 25 kg).

X3 Bar Variable Resistance System

- X3 Bar with full band set & ground plate. Allows heavy progressive loading without joint shear.

Metabolic Conditioning & Cardio

- Rowing machine.
- Private swimming pool.

Calisthenics & Bench

- Olympic gymnastics rings.
- Pull-up bar.
- Set of parallettes.
- Adjustable incline bench.

4. Weekly Training Plan Evolution

VERSION 1: Base Plan (Dumbbells + Kettlebells + Parallettes + Rower)

Designed for the initial setup utilizing free weights, bodyweight parallettes, and rower conditioning.

MONDAY Upper Body (Upper Chest & Back Focus)

- **Pull-Ups / Chin-Ups (Pronated or Neutral):** 4 sets × 6–10 reps (Hold dumbbell between feet if bodyweight is light).
- **Incline Bowflex DB Press:** 4 sets × 8–10 reps (Controlled eccentric phase).
- **Parallette Deficit Push-Ups:** 3 sets × 12–15 reps (Deep stretch at the bottom).
- **Single-Arm KB / DB Row (53 lb KB / 50 lb DB):** 3 sets × 10 reps per side.
- **DB Lateral Raises (15 lb DBs):** 4 sets × 12–15 reps.

TUESDAY Lower Body & Posterior Chain

- **Heavy Goblet Squats (53 lb KB / Bowflex at 55 lb):** 4 sets × 10–12 reps.
- **Heavy DB Romanian Deadlifts (Bowflex DBs):** 4 sets × 10 reps.
- **Bulgarian Split Squats:** 3 sets × 8–10 reps per leg (Holding DBs).
- **Explosive KB Swings (53 lb KB):** 4 sets × 20 reps.
- **Parallette L-Sits or Hanging Leg Raises:** 3 sets to technical failure.

WEDNESDAY Active Recovery & Rower HIIT

- Warm-up: 5 minutes of easy rowing.
- **Rowing Intervals:** 500m Sprint at 85–90% effort → 60 seconds rest. Repeat for 5 rounds.
- **Core:** Parallette or floor Plank holds (3 sets × 60 seconds).

THURSDAY Shoulders, Arms & Core

- **Seated Incline DB Overhead Press:** 4 sets × 8–10 reps.
- **Parallette Dips:** 4 sets × 10–12 reps.
- **Incline DB Bicep Curls:** 3 sets × 10–12 reps.
- **Incline DB Rear Delt Flyes:** 3 sets × 15 reps.
- **Tuck Planche / Parallette Knee Tucks:** 3 sets × 30 seconds.

FRIDAY Lower Body Strength & Heavy Row

- **Single-Leg KB Romanian Deadlifts (20 kg KB):** 3 sets × 10 reps per leg.
- **Chest-Supported Incline Bench DB Rows:** 4 sets × 10 reps.
- **DB Walking Lunges:** 3 sets × 12 total steps.
- **KB Snatch or Clean & Press:** 3 sets × 8 reps per arm.

SATURDAY Metabolic Conditioning

- **Rowing Machine Pyramid:** 250m, 500m, 750m, 500m, 250m (Rest equal to work time).

SUNDAY Full Rest

- Light walking only (8,000–10,000 steps). Gentle joint mobility.

VERSION 2: Integrated Plan with X3 Bar System (Heavy Variable Resistance)

Integrating the X3 Bar system eliminates the loading ceiling of dumbbells (55 lb), enabling maximum muscle motor unit recruitment on compound lifts with zero joint strain.

X3 Execution Rule (Diminishing Range of Motion):

In every X3 set, perform full range-of-motion reps until full extension is impossible. Without pausing, immediately continue performing half reps and quarter reps until total muscle exhaustion.

MONDAY Heavy Upper Body (X3 + Free Weights)

- **Pull-Ups / Chin-Ups:** 4 sets × 6–10 reps.
- **X3 Banded Chest Press:** 4 sets × 10–12 reps (Focus on peak squeeze & short burnout reps).
- **X3 Banded Bent-Over Row:** 4 sets × 10–12 reps.
- **Parallette Deficit Push-Ups:** 3 sets × 12–15 reps.
- **DB Lateral Raises (15 lb):** 4 sets × 12–15 reps.

TUESDAY Heavy Lower Body & Posterior Chain (X3 Deadlift)

- **X3 Banded Deadlift:** 4 sets × 10–12 reps (Explosive hip drive at lockout).
- **X3 Banded Squats (Front or Back):** 4 sets × 10–12 reps.
- **DB Bulgarian Split Squats:** 3 sets × 8–10 reps per leg.
- **Explosive KB Swings (53 lb):** 4 sets × 20 reps.
- **Parallette L-Sits:** 3 sets to failure.

WEDNESDAY Rower HIIT

- **500m Rower Sprint** → 60s rest × 5 rounds.
- **Core Planks:** 3 sets × 60s.

THURSDAY Shoulders, Arms & X3 Isolation

- **X3 Standing Overhead Press:** 4 sets × 8–10 reps.
- **Parallette Dips:** 4 sets × 10–12 reps.
- **X3 Bicep Curls:** 3 sets × 10–12 reps.
- **X3 Tricep Pushdowns or Overhead Extensions:** 3 sets × 12–15 reps.
- **Incline DB Rear Delt Flyes:** 3 sets × 15 reps.

FRIDAY Lower Body Strength & Heavy Row

- **X3 Banded Squats:** 4 sets × 10–12 reps.
- **Single-Leg KB RDLs (20 kg):** 3 sets × 10 reps per leg.
- **Chest-Supported Incline DB Rows:** 4 sets × 10 reps.
- **KB Snatch or Clean & Press:** 3 sets × 8 reps per arm.

SATURDAY Rower Conditioning Pyramid

- Pyramid: 250m, 500m, 750m, 500m, 250m.

SUNDAY Rest & Steps

- Walking and joint mobility.

VERSION 3: ULTIMATE ELITE PLAN (X3 Bar + Olympic Rings + Pool + KBs + Rower)

This is the ultimate, fully-optimized protocol. It combines 3D ring instability for upper body density and core stabilization, X3 heavy loading, kettlebell explosiveness, and swimming pool metabolic conditioning and spinal decompression.

MONDAY Upper Body Hypertrophy (Olympic Rings + X3 Bar)

- **Olympic Ring Pull-Ups (Neutral to Pronated Grip):** 4 sets × 6–10 reps.
- **X3 Banded Chest Press:** 4 sets × 10–12 reps (Burnout reps at end).
- **Olympic Ring Dips:** 4 sets × 8–12 reps (Turn rings out at top).
- **Olympic Ring Inverted Rows:** 3 sets × 12–15 reps.
- **DB Lateral Raises (15 lb):** 4 sets × 12–15 reps.

TUESDAY Heavy Legs & Gymnastic Core

- **X3 Banded Deadlift:** 4 sets × 10–12 reps.
- **X3 Banded Squats:** 4 sets × 10–12 reps.
- **DB Bulgarian Split Squats:** 3 sets × 8–10 reps per leg.
- **Kettlebell Swings (53 lb / 24 kg):** 4 sets × 20 reps.
- **Olympic Ring Ab Rollouts:** 3 sets × 10–12 reps.

WEDNESDAY Metabolic Conditioning (Pool or Rower)

- **Pool Option (Recommended):** 10 rounds of 25m or 50m Freestyle Sprints → 45s rest between sprints.
- **Rower Option:** 5 rounds of 500m Rower Sprints → 60s rest.
- **Core:** Ring or Parallette Isometric Plank (3 sets × 60s).

THURSDAY Shoulders, Arms & Gymnastic Stabilization

- **X3 Standing Overhead Press:** 4 sets × 8–10 reps.
- **Ring Push-Ups (Feet elevated, hands low):** 4 sets × 12–15 reps.
- **X3 Bicep Curls:** 3 sets × 10–12 reps.
- **X3 Tricep Pushdowns or Ring Extensions:** 3 sets × 12–15 reps.
- **Ring L-Sits or Ring Knee Tucks:** 3 sets to technical failure.

FRIDAY Posterior Chain & Unilateral Strength

- **X3 Banded Squats:** 4 sets × 10–12 reps.
- **Single-Leg KB RDLs (20 kg):** 3 sets × 10 reps per leg.
- **Chest-Supported Incline DB Rows:** 4 sets × 10 reps.
- **KB Snatch or Clean & Press:** 3 sets × 8 reps per arm.

SATURDAY Swim Sprint Circuit or Rower Pyramid

- **Pool Circuit:** 8 × 50m Max Effort Sprints (60s rest).
- **OR Rower Pyramid:** 250m, 500m, 750m, 500m, 250m.

SUNDAY Active Recovery & Spinal Decompression in Pool

- **Easy Recovery Swim:** 15 to 20 minutes of continuous, relaxed swimming (easy freestyle or breaststroke).
- Light walking (8,000 – 10,000 total steps).

5. Day 1 Checklist & Kickoff Protocol

Day 1 Mandatory Checklist:

1. **Macro Setup:** Adjust tracking app to **2,000 kcal** target with **170g protein**. Log meals before eating.
2. **Pantry Cleanout:** Isolate or remove all gluten products, cookies, pastries, sugary juices, and processed snacks.
3. **Morning Hydration Protocol:** Drink 500 ml of pure water immediately upon waking, before coffee or food.
4. **Day 1 Execution (Elite Plan):** Complete Upper Body Session (Olympic Rings + X3 + DB Lateral Raises), logging reps and weight settings.
